SUMMER

The "summer slide" refers to the loss of reading skills caused by a lack of reading during the summer.

1

Read Every Day

Research suggests reading at least 20 minutes everyday can help children maintain or improve their current reading level.

2

Read Everything

Encourage your child to find daily opportunities to read, such as the newspaper, magazines, menus, recipes, online sources, etc.

3

Read Aloud

Children of all ages can build listening comprehension skills and learn new vocabulary while listening to someone read to them.
